

PRODUCT DATASHEET

DIGITAL TIMER SWITCH WITH LED DISPLAY, 220-250V AC 16A, WITH BATTERY BACKUP

SKU: SWC-TIMER-A

Categories: [Electrical Accessories](#)

This is a heavy duty digital electronic time switch which is fully programmable repeatedly with 16 on-off settings and a manual over-ride.

It has a digital LCD display for easy operation and battery power back up to avoid loss of memory during power outage.

- Can be set to select one individual day or a pre-set combination of days.
- Settings are saved by backup battery.
- Saves cost on electricity and extends the life of your appliances by switching them off when not required.
